US Wire Press Release

One release syndicated across 570+ US news sites, and the only package in the range that carries followed links.

WHAT YOU GET

- One publication plus syndication across 570+ US sites
- Followed (dofollow) links, unique to this package
- A single branded link per article, plus one revision round
- You supply the copy, up to 600 words
- Minimum syndication guaranteed on 200 sites

WHERE IT APPEARS

570 US news and business titles, led by the St. Louis Post-Dispatch (DR 83), Buffalo News (DR 81), Arizona Daily Star (DR 81) and Madison.com (DR 80). 306 sites sit at DR 50+ and 88 at DR 70+, with a combined reported reach near 87 million. Full list of websites available here.

WHAT THIS DOES

Combines wire-scale reach with the one thing wires almost never give you, a followed link. Every placement points authority at your site as well as putting your story in front of US regional newsrooms.

WHAT THIS DOESN'T DO

Copy is not written for you and the piece is capped at 600 words. Images are included only where a copyright agreement is in place.

Timeline: confirmed at booking
